

# Peter Hoang

Software Developer

[phonghoang@gmail.com](mailto:phonghoang@gmail.com)

[\(424\) 230 - 6044](tel:(424)230-6044)

San Francisco, CA

[peterhoang.io](http://peterhoang.io)

**WHO AM I:** Results-oriented full-stack web developer with experience in analysis, design, development, testing, and implementation of various internet-based applications. Proficient in variety of platform, languages, and embedded systems. Skilled at team collaboration while also working independently in remote environments. Proven ability to integrate out-of-the-box thinking with strong written and verbal communications. Interested in a challenging technical career in Software Development.

## EXPERIENCE

08/2015 – 10/2015

**General Assembly**

09/2014 – 06/2015

**Philips Healthcare**

08/2013 – 08/2014

**Ghostery, Inc.**

09/2010 – 05/2013

**SQA Services, Inc.**

### WDI Student

General Assembly is a global network of campuses for technology, business, and design. It offers many different ways to learn important skills taught by top practitioners with real-world experience. At GA, I completed a 12 week immersive program that builds fluency in full-stack software development with emphasis on work-ready skills through 800+ hours of training. We focused on a multitude of languages, frameworks, libraries, and database systems for web implementation. GA was integral in giving me the foundation I needed to start my career in software development.

### Associate Project Manager

- Developed a strong understanding of the client's needs, objectives, and parameters to help put together a solution.
- Monitored project workflow – setting short & long-term goals and deliverables across multiple teams.
- Consistently drove client reviews and approvals in order to maintain project schedules.
- Ensured all assets and deliverables complied to specific government regulations through continuous checks and audits.

### Business Development Manager

- Analyzed the competitive landscape and identified strategic opportunities to leverage Ghostery's unique market value.
- Sourced new leads from different industries to drive customer acquisition, platform adoption, and revenue.
- Leveraged Ghostery's executive leadership and team to create unique value propositions for prospective clients.
- Tracked, analyzed, and communicated key metrics to the executive team to discuss growth and new initiatives.

### Sr. Project Coordinator

- Managed over a dozen Fortune 500 accounts and their supplier quality programs.
- Met with clients to identify project scope and create a road-maps that support their overall strategy and business goals.
- Coordinated audits and inspections base on FDA regulations.
- Proactively engaged clients throughout the project life-cycle to determine any changes and devised a contingency plans.

## PROJECTS

### Social Layover

A social networking web-application that connects individuals as they wait for their flight, typically for those who are delayed or layover. Think, Tinder for the airports. This was an individual project where I built both the backend web server/database and the front-end user interface.

**Technologies:** JavaScript, jQuery, AJAX, EJS, Express, Node.js, MongoDB, Bootstrap FlightStats API

**Github:** <https://github.com/gnaoh/sociallayover>

**Heroku:** [social-layover.herokuapp.com](https://social-layover.herokuapp.com)

### GameOn

A social sport sharing platform enabling players to organize amateur and pick-up sport matches of all types. It's an online community that allows people to connect and play. This was a group project where I took on the role as lead developer focusing on team, process, and technology.

**Technologies:** Ruby on Rails, PostgreSQL, JavaScript, jQuery, AJAX, Google Maps API, Bootstrap

**Github:** <https://github.com/gnaoh/gameon>

**Heroku:** [ga-gameon.herokuapp.com](https://ga-gameon.herokuapp.com)

### Pin | Me

A web-application that enable users to post pins (images) for others to see. This was the first project that I built, prior to enrolling into General Assembly's Web Development Immersive Program.

**Technologies:** Ruby on Rails, Paperclip, Amazon AWS, Postgresql

**Github:** <https://github.com/gnaoh/pin-me>

**Heroku:** [pin-me.herokuapp.com/](https://pin-me.herokuapp.com)

## EDUCATION

2015

**General Assembly**

### Web Dev Immersive

12-week intensive course that builds fluency in full-stack web development

### Bachelor of Arts

Economics with an emphasis in Communications

2005-2009

**UC Davis**

**Languages:** JavaScript, Ruby, CSS3, HTML5, Sass, Less      **Testing:** Mocha, Chai, RSpec, Protractor

**Framework & Libraries:** Node.js, Express, AngularJS, Rails, jQuery, Bootstrap, AJAX, Phaser      **Collaboration Tools:** Heroku, Git/Github, Amazon S3, Trello

**Database & Tools:** MongoDB, SQL, PostgreSQL, Sequelize, ActiveRecord, JSON, Routing

**Additional:** Underscore, EJS, Sidekiq, RESTful, Wireframing, API Integration
